- 650 Mbit NAT
- 4x Gigabit WAN/LAN
- WLAN
- Web-Gui

Support: ![pdf icon] First Steps Manual [DE/EN]

CTFROUTER is a complete, pre-installed, ready-to-go Multi-WAN router with many features.

The particular strengths are in the comfortable operation via a web interface (multilingual), the extensive functionality with even server functions (mail, Groupware, SQL,...) and especially in the support of up to 5x WAN inputs (eg. DSL, cable modem ,...).

Hardware :
- AEWIN SCB-6907A-CA1 (Intel Atom X5-E3930, 4x LAN, VESA) [FANLESS]
- Kingfast F2 SATA SSD 32GB
- Wireless LAN Mini-PCI Express [Atheros AR9280 chipset] (300 Mbit, with antenna)

Software :
ClearOS 7 :
- Open-Source
- Multi-WAN (Kabel, DSL,...)
- 5x Gigabit LAN for free configuration as WAN or LAN ports
- 550Mbit NAT performance
- VPN (PPTP, Ipsec, OpenVPN)
- WLAN Access Point (802.11 b/g/n)

- DMZ, 1-to-1 NAT
- Stateful Firewall
- DHCP / DNS Server
- Console- (VGA) + Web-GUI multi-language (20 languages)
- SSH access
- Gateway Filter (Antimalware, Antispam, Intrusion Detection,...)
- Content Filter, Access Control
- Web Proxy
- UPNP
- Dynamic DNS
- QOS
- Many Server functions (Windows Networking with PDC Support , groupware, Mail Server, MySQL, WebServer, etc...)
